PROFESSIONAL SUMMARY

Results-driven Software Developer with 2+ years of experience engineering high-performance backend systems and REST APIs using Python and Django. Combines strong software development fundamentals with specialized, certified expertise in the WSO2 integration ecosystem (API Manager, Micro Integrator) to deliver secure, scalable enterprise solutions. Recognized for translating complex business requirements into clean, maintainable backend logic and for consistently shipping production-grade APIs across banking, government, and enterprise workflow systems. Quadruple WSO2-certified professional with a 9.0 CGPA academic record and a track record of rapid technical growth.

CORE COMPETENCIES

Python • Django • REST API Development • API Lifecycle Management • System Integration • OAuth2 / JWT Security • API Manager • Database Design • Data Services • Object-Oriented Programming

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, PHP, HTML, CSS

Backend & Frameworks: Django, REST APIs, Express.js, Node.js

Integration & Middleware: WSO2 API Manager, WSO2 Micro Integrator, REST, SOAP, OAuth2, JWT, Axis2, Data Services

Databases: MySQL, MongoDB, SQL Server (MSSQL)

Tools & Methodologies: Git, GitLab, VS Code, API Lifecycle Management, Postman

PROFESSIONAL EXPERIENCE

WSO2 API Developer — Trainee Graduate

Jun 2025 – Present

Impiger Technologies Pvt Ltd

Coimbatore, India

- Architect and develop backend REST APIs and integration logic, applying core Python and object-oriented software engineering principles to build secure, maintainable, production-ready services.
- Own end-to-end API lifecycle management using WSO2 API Manager — from design and publishing through versioning and deployment — improving consistency and turnaround across integration projects.
- Engineer robust system integrations with WSO2 Micro Integrator, building Proxies, Sequences, Endpoints, and Data Services that connect multiple enterprise systems reliably.
- Implement industry-standard authentication and security protocols, including OAuth2 and JWT, to safeguard API endpoints against unauthorized access.

Joget Developer — Trainee Graduate

Dec 2024 – May 2025

Impiger Technologies Pvt Ltd

Coimbatore, India

- Engineered backend workflow automation logic for enterprise process management using Joget DX, applying Java-based object-oriented programming to streamline business operations.
- Designed and deployed custom plugins and business logic that extended platform functionality and reduced manual process overhead.
- Customized and maintained enterprise applications and workflows in response to evolving business requirements, ensuring zero disruption to live operations.

Joget Developer — Intern

Jul 2024 – Nov 2024

Impiger Technologies Pvt Ltd

Coimbatore, India

- Built enterprise workflow applications and backend automation logic from the ground up using Joget DX and BeanShell scripting.
- Customized forms, workflows, and business rules to support and accelerate process automation initiatives.
- Integrated applications with MySQL databases, writing optimized queries and managing data models for reliable production performance.

KEY PROJECTS

PPC – Pon Pure Chemical Enterprise Workflow System — *Python-driven logic, Joget DX7, BeanShell, MySQL*

- Engineered a multi-module enterprise platform spanning WMS, QMS, PMS, TODO & MOM, and Checklist systems, streamlining operations across departments.
- Designed dynamic forms and backend workflow logic using Joget Process Builder and Form Builder, reducing manual data entry.
- Implemented core business logic and integrated backend MySQL databases to support reliable, real-time production data handling.

UAB – United Arab Bank API Integration — *WSO2 API Manager, WSO2 Micro Integrator, REST APIs*

- Developed and deployed secure, production-grade REST APIs for critical banking system integrations using WSO2 API Manager.
- Built and optimized integration flows using WSO2 Micro Integrator across APIs, Proxies, Sequences, and Data Services to ensure reliable cross-system data exchange.

NITA Uganda Integration Platform — *WSO2 Micro Integrator, WSO2 API Manager, REST/SOAP*

- Built REST and SOAP-based integration services using WSO2 Micro Integrator, enabling seamless cross-system connectivity for a national-level platform.
- Managed message transformation, routing, and end-to-end API lifecycle within WSO2 API Manager, ensuring high availability and data integrity.

EDUCATION

Bachelor of Computer Applications (BCA) — CGPA: 9.0 / 10

Sri Sankara Bhagavathi Arts and Science College

Affiliated to Manonmaniam Sundaranar University

2021 – 2024

Tirunelveli, Tamil Nadu, India

Higher Secondary Education (12th) — 85%

T.A. Ramalingam Chettiar Higher Secondary School

2019 – 2020

Coimbatore, Tamil Nadu, India

SSLC (10th) — 80%

Government Boys Higher Secondary School

2018 – 2019

Coimbatore, Tamil Nadu, India

CERTIFICATIONS

- Crash Course on Python — Google (Coursera)
- WSO2 Certified API Manager — Developer & Practitioner (V4)
- WSO2 Certified Micro Integrator — Developer & Practitioner (V4)
- WSO2 Certified Identity Server — Developer & Practitioner (V7)
